

LAUNDRY BOOSTER

SPARKLY CLEAN LAUNDRY FROM 20°C

Before

After

Application example

**Lower the temperature,
increase the washing performance!**

Examples of use: Ideal for demanding washing tasks, such as baby clothes, work clothes or underwear. The laundry booster is suitable for all types of fabrics, except wool and silk.

Application: Add 1 tablespoon (20 g) directly to the washing machine drum in addition to the detergent and start the wash cycle immediately.

- Step 1:** Place the laundry in the washing machine; no pre-treatment of stains is necessary.
- Step 2:** Select the wash programme and reduce the temperature, or select a low-temperature wash programme.
- Step 3:** Add your chosen detergent as usual, according to water hardness and soiling.
- Step 4:** Add 1 tablespoon (20 g) of laundry booster to the laundry in the drum.
- Step 5:** Start the wash programme immediately.

Recommendation: Follow the care instructions provided by the textile manufacturer.

Detergent certified by ECOCERT Greenlife according to the ECOCERT "Ecodetergent" standard available at <http://detergents.ecocert.com>
