APPLICATION RECOMMENDATION:

Surfaces:

Add 5-20ml of orange oil cleaner to a bucket containing 5 litres of water. Moisten the dirt with water, then apply the mixture and leave to work for a short time. Then wipe off with plenty of water. Repeat if necessary.

Textiles:

Moisten the stain, apply a few drops of Orange Oil Cleaner to the stain. Leave to work. Dab carefully, wash textiles immediately in the washing machine or rinse with plenty of water.

Windows, glass:

Add a splash of orange oil cleaner to 5 litres of water. If the dosage is too high, streaks will form.

Note: Only use on white or colour-fast textiles. Check material compatibility on a concealed area before use. Do not use on acrylic glass, wood or painted surfaces!

Product certified by Certisys. srl,
www.ecogarantie.eu

SUCCESSFULLY DERMATOLOGICALLY TESTED

GENERALLY APPLIES:

Less is more: use less cleaner and plenty of water and give the cleaner enough time to work.

Depending on the soiling, the exposure time can be several minutes.

IDEAL FOR:

Kitchen and bathroom: worktop, extractor bonnet, oven, grill, tiles, sink. For particularly persistent stains.

Floors: Marble, tiles, PVC flooring, laminate, linoleum, also for removing adhesive strips and rubber marks (black streaks).

Windows, glass: Mirrors, window panes.

Patio cleaning: Plastic garden furniture, patio surface, suitable for any dirt and discolouration.

Car, boat, caravan, motorbike, bicycle, workshop:

e.g. degreasing bicycle or motorbike chains, effective removal of insect stains.
